About Us

No textile company can claim to be as vertically integrated as we are. Our value chain covers all the operations from the extraction of cotton lint to garment manufacturing. Our facilities for ginning, spinning, weaving and garmenting are equipped with latest technology machineries and manned by experienced workforce. Our parent company Nuzeevidu Seeds Limited is the biggest seed company in India. The cotton seeds sold under its brands are most sought after in India. The experience of the parent company in cotton growing has given us the unique advantage in terms of better selection of right quality of cotton bales. Committed to the environment, the company has taken special care to preserve and upgrade the natural surroundings. Zero discharge at all the manufacturing plants, energy efficient machineries, water harvesting and energy recovery systems are only some of the steps company has taken in this direction.
