## About Us

**NTF India** is a renowned manufacturer, developer and supplier of engineering plastic and composite parts mainly for transport sector including majorly automotive parts and systems. Since its inception in 1984, the company has emerged as a leading manufacturer in light weight Reinforced Plastic parts and composites in single skin and sandwich construction. The company was the first one to introduce RTM technology in India in 1989 and since then we have been expanding our operations to include various technologies. **Our offerings includes:-**

- Automotive Interiors
- Automotive Exteriors
- Automotive Design & Engineering Services
- GRP Composites and Non-filled Plastic Components for
- Automobiles/ Locomotives/ Tractors
- Medical & Defense Equipment
- Plastic Components for Wind Mills
- Painting Services

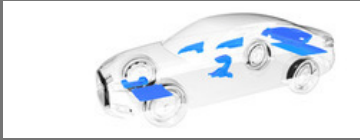

Where conventional technology ends we begin. Taking the engineering plastics and advanced composites industry in India to the next level with global benchmarking, innovations and knowledge management.
