About Us

Nuevosol Energy is an innovative solar company founded in 2011, with a vision to bring scientific rigor to the design and installation of solar mounting structures, and to promote solar rooftop mounting with indigenous solutions for plethora of requirements. Nuevosol is headquartered in Hyderabad, India. Structures were long-perceived as off-the-shelf products, bereft of imagination or innovation. Nuevosol changed such perceptions. By introducing project-specific customisations, promoting process-oriented optimisations, and ensuring overall project financial feasibility, Nuevosol has fostered grid parity and continues to cater to the nation's dream of a secure energy future.
