About Us

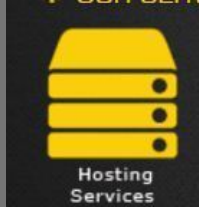

We are young in the information Technology arena; Established by a group of dynamic entrepreneurs based at Kerala, India. After spending several years in the corporate world and experiencing all the ups and downs in the career, We a group of experienced web designers, developers, software engineers and trainers decided to start our own venture and we together named it 'OCIUZ TECHNOLOGIES'. A wide range of information Technology services have positioned the company to find solutions to drastic requirements on all areas of the current market .The company also provide solutions for all sectors such as Government, Telecom and Education in the software/web development. We aim to break the boundaries of creativity and let our employees, think out of box to come up with something new and better each time they get into development. Be it website designing and development, desktop application programming, Mobile application development,Internet marketing, Outsourcing we are ready to provide best service in the industry with real IT professionals to meet the corporate demands without putting too much strain on customer. We inculcate the habit of doing researches and fire up the hunger to invent new user friendly systems for our customers. The company's goal is to ensure that all the customers are satisfied on time and to provide the employees a best place to share their passion. Together we will deliver superior value for our customers and shareholders.
