Oerlikon Balzers Coating India Limited

https://www.indiamart.com/oerlikonbalzers-coating/

Oerlikon Balzers is the leading global supplier of PVD coatings and other surface technologies which decisively improve the performance and service lives of precision components as well as of metalworking and plastics processing tools.
About Us

The reliable route to high-performance tools and components Oerlikon Balzers is the leading global supplier of PVD coatings and other surface technologies which decisively improve the performance and service lives of precision components as well as of metalworking and plastics processing tools. The proprietary coatings developed by Oerlikon Balzers and marketed under the BALINIT® brand are extremely thin and very hard. They significantly reduce wear and friction. Oerlikon Balzers also develops coating processes, manufactures and markets coating systems and turnkey production lines, and offers contract coating services through its dynamically growing network of c
