## About Us

Om Exports is one of the leading steel manufacturing setup in Pune, Maharashtra. Apart from meeting the requirements of its customers in the local market, the company exports its products to European countries, Middle East and Singapore. Over the years our range of products has carved a niche for itself in the market and is widely regarded as value for money. We're now a well know steel manufacturing brand in the region.

Today, it is equipped with State of the Art equipment and machinery, designed and developed by renowned manufacturers who possess pioneering status in this field. The Company makes use of Computer Aided Tools in its manufacturing process. The Company has independent divisions for Design, Production, Quality Control, Materials and Sales, all headed by professionals in the respective fields.

In 2011, the Company doubled its production facilities by increasing the built up area to 1500 sq.mt. and by adding new machinery. Having established itself as an excellent manufacturer of steel components in India. We considered the possibility of expanding to other markets in Middle East. By the beginning of 2012, the new unit was commissioned with a built up area of 12000 sq.ft. and most modern production facility.
