About Us

Om Pile expertly weaves, dyes, and finishes exclusive Upholstery, Furnishing and Fashion velvets for the international market. Our Products reach more than 20 countries. With more than 50 years of experience, we specialize in solid and patterned velvet woven from natural yarns like Cotton, Wool and man-made yarns like Rayon, Polyester and Viscose. In technical collaboration with Arch star LLC, USA we have set up a vertically integrated weaving, dyeing and finishing plant. All of our machinery is imported from USA and Europe. Our unique continuous process avoids multiple handling of the fabric and allows us to produce an impeccable product. Quality & Craftsmanship, These are the hallmarks of our mill.

At Om Pile, we aspire to create exclusive and original fabrics. Our distinctive range of velvets demonstrates the potential of our mill and represents only a fraction of its capabilities. We continue to develop new fabric possibilities - independently, as a source of inspiration for customers. Om Pile's Cotton and Rayon velvets are especially remarkable and incomparable to other fabrics. We create velvets for a gamut of applications from draperies, curtains, eclectic accessories, tactile wall covering, luxurious furnishings to sumptuous evening wear and opulent bridal wear, to name a few. We don't limit our velvets applications and our client are our best ambassadors.
