## About Us

**Omega Softwares** is the highly acclaimed Custom Software Development Services Company in India. We are providing solutions to the businesses, corporates and startups to get their own **App Development Service, MLM Software Service, Web Designing and Development Services and much more.** We provide complete 360 Degree Marketing Services for all your business requirements.

It was in December **2001** that a highly skilled group of engineers who shared the same sensibilities, got together and laid the seeds of Omega Softwares. Right from its inception the goal of the organization was clear: to provide state of the art web solutions to customers using only the best possible technology available. Since then Omega Softwares has come a long way. We have a team of professional web developer, designers and experienced digital marketing people, who always deliver great personalized services as per business requirement. This includes ideas, services and design. We pride ourselves on retaining the very same ethics that went into building our esteemed organization and it is these very same ethics that make sure that we complete all our projects on time. It is because we have a manic need for perfection, and this is what drives us towards working selflessly towards the goals of our customers without compromising on quality at all. We provide outstanding end-to-end connectivity between our offshore setup and clients....
