Omkar Engineers, Inc established in the year 1991. The company, at the beginning stage, was authorized service station for many renowned organizations like, M/s. Kirloskar Electric Co. Ltd.

About Us

Omkar Engineers, Inc established in the year 1991. The company, at the beginning stage, was authorized service station for many renowned organizations like, M/s. Kirloskar Electric Co. Ltd., M/s. Siemens Ltd., M/s. Bharat Bijali Ltd., M/s. Newage Electrical India Ltd, M/s. AVK Ltd., M/s. Crompton Greaves Ltd. It was the technical and service capabilities of OEI, for why such esteemed companies shown their trust in OEI. Nowadays, OEI has retained dealership only from selected companies like, M/s. Cummins Generator Technology Ltd. (The largest manufacturer of Alternators in India), M/s. AVK Ltd. (HT Generators), M/s. Crompton Greaves Ltd. and M/s. Meccalte India Pvt. Ltd. (Italian Company). OEI reached to such level that today OEI is being enquired by many multinationals for their authorized dealership. But as a policy decision, in order to render more than expected services to own customers, OEI restricted the dealerships.

Over the span of twenty years, OEI achieved thorough knowledge in Electrical Rotating Machines and reached a level of rebuilding up to 20 MW, 11 Kv machines, of any make and of any design. OEI has established an effective Quality Assurance System. Every machine under rebuild is tested at three stages. FIR, the first stage testing is done to understand the original design parameters of machine in order to redesign through reverse engineering and to report customer about their machine. There are stages of In-Process Testing, and Incoming...
