About Us

Omsys is founded by young and experienced industry professionals who have a passion of transforming their creative ideas into reality; reality- which is unique, fresh and close to oneself.

An apple fallen from a tree became an invention because it was noticed by creative eyes of Newton – it's a fact that 'seeing things differently makes a difference'. At Omsys every team member is a Newton, because he has a vision of doing things innovatively. Eureka! Eureka! Eureka! is the word one can listen frequently at our work place.

Our team is powered by experienced professionals who have already worked with Fortune 500 and other multi-national companies. Team Omsys comprises of people with diversified skill sets and industry domain knowledge – Fine Arts, IT Programming and Consultancy, Business Administration and Analytics, Media and Designing. Going ahead - our domain experts bring value to the table as every work done by them has a flavor of domain; for an example if we are designing a website for a hospitality industry client, the presence of our domain expert who has already worked in the hospitality industry will give the assignment a different professional touch.
