## About Us

Filmmaking is an art. But we do it for the commerce. In simple words, whatever we are offering whether it is an Ad film or a corporate film, it is a marketing tool. A corporate AV is not a product by itself. It should be an effective tool that will help a sales person to make people understand about his product or service. That is why although it has to have its aesthetic value and detailing, it should also have the commercial aspect. It should fit within a given budget and should have the power to convert a viewer into a buyer. Backed by the 12 years of advertising experience, we understand the importance of the tag 'commercial' with an art. We deliver our products in such a way that they will give a larger than life picture. We, at One Mile Ahead Films, keep this in mind and give due importance to the product for which we are making an adfilm.
