About Us

Founded in 2011 in India; Orion App offers the most comprehensive solutions in the field of mobile technology, media / advertisement and promotion. We have unsurpassed facilities, state-of-art development roadmaps for our products and services and a motivated team to support our clients and their needs. Among our most beneficial tools are the content management tools and integrated promotional strategy for our clients. The project is promoted by industry experts and consultants. It provides cost beneficial yet very effective solutions to its clients. It offers solutions ranging from website design to product promotion to corporate branding. Need of promotion of services and products are increasingly in demand in India as well as in the international market. The company is committed to unleash the potential in this area and help its clients with professional attitudes. We are constantly seeking to improve our products and services to clients, and are unique in providing support to help our clients achieving their objectives. We have an excellent reputation for speed, efficiency and courteous service as well as being regarded as an organization providing quality support and services at a realistic price. Around 50% of our business is referral business or through recommendations. Our professional staff has experience behind them for strategizing deliveries, planning and implementing the promotional activities.
