About Us

Ortus, established in 2001, is a company focused on advising, implementing and supporting Phone Systems, Computer and Networking Solutions designed for SME and large organizations. We have firsthand experience in the development of cost effective solutions that will make your company operate at maximum potential at the lowest possible cost. Our list of accreditations and certifications are listed below. Ortus is an accredited Avaya Business Partner and its product approved for the full range of Avaya IP Office products. Our engineers are trained and supported directly by Panasonic, NEC, CISCO, and NORTEL to install, service and maintain their full range of Telephone Systems. As a service company, we value regular training and certification/accreditation as an essential part of our ongoing business. We keep up to date records on all our engineers, and certificates are available to view upon request. We are trained and certified by Dubai Police for Security System Installations. We have trained Engineers / Technicians for Security system installations for any kind of business. Also we could get the site inspected by Dubai Police Engineers and get certified.
