About Us

The **OSHNIC GROUP** originated in 2003, headquarter at Bhopal (Madhya Pradesh) India and emerged as a world-class, multi-product, eco-friendly organization, well equipped with latest technology and innovative ideas for customer satisfaction. The OSHNIC GROUP comprises 7 operating companies in different business sectors mainly biotechnology in agriculture, fertiliser production, seeds, micro irrigation, LED lights, solar energy and real estate. We believe in to preserve and rational use of the natural resources to protect the planet earth from the uncontrolled and irrational use of conventional technology mainly in agriculture and energy sector.

The **Oshnic Group** has a clear vision on sustainability and natural resource management in agriculture, micro irrigation, renewable energy and real estate sectors for the benefit of our customers and welfare of the society. The natural resource based on land, water and bio-diversity is under severe pressure and scarcity. Future increase in the production of food grains and non-cereal agricultural commodities will have to be essentially achieved through increase in productivity by using latest technology, as the possibilities of expansion of area and stock population are minimal.
