About Us

P L Products is an importer of Branded "OXEN" RO System. Since our establishment in the year 1999-00 we import systems as well as Our Domestic RO systems have been used largely for purification of domestic water, while commercial RO system have also found a range of industrial applications. Some of these include usage of commercial usage of commercial RO systems in offices, aquariums, multiplexes, hospitals, showrooms and amusement parks. The commercial and domestic RO systems imported have been related on quality; performance and durability parameters.
