# Pacific Europlast (I) Pvt. Ltd

<https://www.indiamart.com/pacific-europlast/>

We are one of the leading manufacturers providing an extensive range of UPVC Doors and Windows that are equipped with salient features such as energy saving, eco-friendly which prove that these are best in all aspects.

## About Us

Backed by experience, our company has established a renowned name over the years because of the flawless products and services we have been offering to our clients all over the world. Keeping in mind the varied requirements of our customers, we offer all the products in different customized options. In addition to this, our leading company is equipped with an excellent infrastructure which is segmented into various departments, staffs and units where the workers, technicians, quality controllers and other members strive to deliver the same output that is “quality products and services”. Besides this, we provide hi-tech machines like welding machines, cutting machines, shaping machines and more, which help the workers in performing their assigned tasks effectively. Moreover, we have been able to mark this leading position in the market just because of our respected mentor, “Mr. Sanjay Jain”, under whose guidance and surveillance we have worked and learned the various ways to attain perfection in our quality. His profound industry knowledge and experience has really helped us in achieving a reliable name in the entire world.
