Pallav Industrial Electricals & Services LLP

<https://www.indiamart.com/pallav-traders/>

We are among the leading supplier & contractor of **Industrial Electrical Products and LED Light Fixtures**. Our products find applications in all types of industries and other commercial establishments.

About Us

Established in the year **1980**, '**Pallav Traders**', have gained expertise in supplying & contracting an extensive range of **Industrial Electrical Products and Distribution of LED Light Fixture**. Our employed engineers and technicians use supreme quality raw material and sophisticated techniques to supply the entire product line. They adopt latest methodologies for developing these products. Our enterprise has grown into one of the prominent organizations in electrical industry.

We obtain raw material from certified and reliable products of the industry to supply a qualitative range. Furthermore, our research experts help out to improvise the product line with some innovative methods of fabrication. These are fabricated as per the guidelines of international quality standards. Assistance of our trained professionals provide our clients with efficient range of the product. Owing to the quality of optimum performance, easy installation, low maintenance and durability, these have a high demand in the market.

With the able patronage of our mentor, '**Mr. Harsh Nainesh Mehta**', we have acquired vast clientele across the country. His in-depth domain knowledge and highly effective policies has helped us to stand ahead of the other competitors in the industry.
