About Us

Papillon Flower World started with the goal of providing a fresh approach to the industry. Fresh flowers, refreshing prices is the team motto and browsing this website will show you that our designs are unique, inspiring and very reasonably priced. Since conception, the business has 'blossomed', resulting in the launch of 3 stores and a long list of regular customers – both corporate and personal – who are happy to rave about the unique style and personalised service they have become accustomed to. Since launch, we have worked on many weddings – some of them major installations taking weeks of preparation. You can see many of the pictures in the wedding gallery.
