

Parag (Ptfe) Wires And Cable Industries

<https://www.indiamart.com/paragptfe/>

Manufacturer and exporter of cable wire and PTFE wire. Parag PTFE wire and cable industries is a small fast growing company.

About Us

PARAG PTFE WIRE AND CABLE INDUSTRIES is a small fast growing company. It has been founded by Mr. Mohit Gupta in Meerut as a proprietor ship concern. It is fully equipped for manufacturing all kind of PTFE Wires, Cables and Sleeves. We use tape wrapped process to manufacture Wires, Cables and Sleeves. Our Quality Policy is " To satisfy the customers by supplying the best quality products." We use the best quality products. we use the best quality raw material in our products and have a separate testing lab to produce the best products. We are serving the nation from last eight years by supplying our quality products to Defense, Railways, Aircraft, Satellite-Missiles, Nuclear Power Stations and other Electrical-Electronics Industries. PTFE insulated wires, known as HIGH TEMPERATURES ELECTRICAL WIRES, are thermally stable in the temperature range of -200 to +260 c. The non-polar molecular structure of PTFE makes it ideally suitable for it's use as an insulating dielectric material for high frequency working. PTFE insulated SPC/NPC wire are used with great advantage in Aircraft, Electrical Wiring, Co-Axial Cables, Industrial Control Cables, Load Cell Electrical Heating Appliances, Ovens, Power Control Equipment's, Heat Sensing Leads, Refrigeration Equipment, and many more. because of the diameter of these wires and cables being rating, PTFE WIRES are more suitable for dense wiring having an added advantage of space saving of the equipment-cabinet/housing.
