

# Patel Wood Products Limited

<https://www.indiamart.com/patelwood-products/>

Trader of sal wood, dark red meranti etc.

## About Us

In an industry that is functionally unorganized today and working in a traditional way, there has been lack of professional practices, qualified man power, organization systems and technology adaptation. Patel wood today is pioneering the best practices and striving for excellence through adaptation of latest technology and management learning. We have successfully traveled many a milestones in this long journey. An ISO 9001:2000 certified company, we are managing our operations through effective Information Technology adaptation and have excellent production facilities with fully automated imported plant and machinery. Over the past decade we have quadrupled our production capacity. We have achieved this by investing in modern sawmill equipment and most advanced IT infrastructure SAP technology, while retaining the manual procedures necessary to provide an extensive range of timber products. Our customers include well known corporate and construction companies that are spread all across the country. This is regulated through our extensive sales network spread across India. We welcome you to be a part of our la creme clientele list.
