## About Us

We are the house ware brand of pearl polymers which has been delighting you since 1984! We believe in providing you with trendy, unique storage products adapted to your needs. We are proud to have brought a new thought process to the indian kitchen by making the first safe, transparent, unbreakable, odorless plastic jars & bottles. Our products managed to carve out a niche in a market where steel containers, glass bottles and other plastic products used to be the go-to items. We endeavor to give you the best designed products that can offer additional style to your home or office. We believe that our products should be safe for everyone to use from sneaking a snack in the dark to drinking water on the go. Our products are made of virgin plastics which are universally approved by usfda eu directive 2002/72/ec, bis is:12252 -1987 and other regulating bodies for food, beverage and water storage.
