About Us

Mr. R.V. Pillai, Ex VP Marketing of Power Electric Cables Co (PECC) after 25 years of service resigned on 23rd March, 2004 due to the unforeseen closure of the company. The goodwill and the love created for him among the clients during his service years led to the birth of a new company under the name and style of PEEVEEAR ELECTRICALS (Pronounced as PEE-VEE-AR) on June 7th, 2004. Today the company is 8 years old, grown Leaps and Bounds to become one of the most respectable company in this trade. We have worked with the cream in the business, made our presence felt with the finest projects across eastern India. Peeveear derives its strength from its customers. The growth of the customer is a prerequisite to the growth of the company and hence customer satisfaction is of utmost priority and the prime objective of the company. Therefore our Credo- "Empowering The Clients" 33 years of experience in the field of cables and wiring led to the 3 most important values and the success formula for which PEEVEEAR truly stands for — "HIT – Honesty, Integrity & Transparency" These three values became the skeleton of our company and the building blocks of a relationship. "We believe in making relations, Business is our second priority."
