

Pepper India Corporation

<https://www.indiamart.com/pepper-india-corporation/>

Exporter of dehydrated green pepper, gloriosa superba, green pepper in brine etc.

About Us

Established in 1975, Pepper India Corporation has today made a name for itself in the processing and exporting of pepper. The company follows stringent quality control measures and is, indeed, one of the pioneers in dehydrating pepper. The company has different units on the foothills of Sahiya mountain ranges, where the best quality pepper is grown in the country. Mr. Kurian Abraham, the man behind the venture, is reputed and well known in the industry for his sound product knowledge, quality of product, and consistency in supply and production capacity. This has been made possible by years of experience in exporting to European countries like Germany (the country which he first ventured into), France, Switzerland and Poland etc.
