About Us

Perfect 2 Advertising was established in the year 2010. To service our clients requirements in a better way, we have moved away from the traditional assembly line structure that characterizes many media agencies. Our structure comprises business units that service the clients business and hence are the expert on the category and the consumer. A typical team has a business head, supported by a battery of strategic and implementation executives as well as operations executives. The teams focus is always the clients business and they are also the single point contact.

To bring in additional focus on Strategy and Buying there are specialized Units. These are core to all the key business units and are tapped by them whenever there is need for inputs on new tools, theories, channel trends and industry benchmarks.
