About Us

As an ISO 9001:2000 certified company, perfection in design & fuel efficiency is guaranteed in all the aspects of power generation. Having a rich expertise of more than two decades in the field of power generation, we are successfully manufacturing and exporting silent DG sets ranging from 5 KVA to 320 KVA. We are proud to be associated with a bank of more than **25,000** happy and loyal customers. The company caters to a wide spectrum of industrial segments including telecommunication, construction & real estate, healthcare, hospitality, retail and many others. Along with our principals Mahindra & Mahindra we have registered an exponential growth during last five years. All this has come after rugged product testing of a quality product produced by us, after honoring our commitments of timely deliveries and round the clock after-sales-service support given to our esteemed customers. The Company's unequivocal commitment for automation and adoption to the latest technology, stringent quality control, custom care, are a few traits which are synonyms to its name **"PERFECT"**
