

# Petroindia Engineering Consultants (Prop. Trilokchand Wadhwa Huf)

<https://www.indiamart.com/petroindia/>

We are a reputed organization that is involved in providing quality engineering services in the national and international markets. The services offered by us are used in designing layouts of petrochemical, oil & gas, power and chemical plants.

## About Us

Incorporated in the year **1995**, we, **Petroindia Engineering Consultant**, are a leading service provider that renders high quality engineering services. Through our services, clients can avail reliable designs and layout for machines, equipment and facilities, and acquire digitized and editable CAD drawings of engineering documents. Our services are commissioned by a reliable team of customer service agents and quality controllers, who are led by senior managers in all endeavors. Due to the immense capabilities of the team, we have been able to commission projects at **petrochemical, oil & gas, power and chemical** plants of reputed national and international firms like **Technip, Foster Wheelers, J-Ray Macdermott, Kvaerner Powergas, Bechtel and Toyo Engineering India Ltd.** We offer various options for modes of payments, including cash, cheque, credit card and DD to the clients. The expertise of our professionals has multiplied under the aegis of our parent organization, and they can satisfactorily serve companies based in public as well as private sector. They carry out basic & detailed engineering, manpower on secondment basis, site management & supervision and multidiscipline-engineering, with specialization in piping engineering consultancy. The Employee Development Initiative allows us to hone the employees and enable them to tap into their true potential. We adhere to our Code of Conduct as well as a TQM policy, both of which guide...
