About Us

Pioneers in carbon black in the country, Phillips Carbon Black Limited (PCBL) is the eighth largest carbon black manufacturer in the world. Part of the illustrious RP-Sanjiv Goenka Group of Companies, PCBL is known for its technical collaborations with foreign entities and state-of-the-art manufacturing facilities. Apart from manufacturing carbon black, the company also manufactures various grades of specialty black.

The company has been continuously reinventing itself in order to make the best in class products. Despite being in a commodity business, PCBL's after sales service and strong technical support ensures a fiercely loyal base of customers from around the world.
