P I METAL PRODUCTS (ISO 9001 : 2015) one of the leading Manufacturers of Customize Brass Turned Components Since 1972.

About Us

We, **P.I. Metal Products**, established in **1972** are well-known manufacturers, exporters and suppliers of a broad range of Metal Components. Our offered products range includes Brass Electrical Components, Sheet Metal Components and Brass Electrical Pins. We have established a strong market goodwill by supplying utmost quality products and it reflects on our success rate over the past four decades. We have been functioning with the sole aim to attain maximum client satisfactions by providing a quality range of products.

We are backed by a state of the art infrastructural unit that covers a vast area and is equipped with latest machines & tools to manufacture a large product line in a streamlined manner. Moreover, our hired best qualified work force always tries to give its best with the aid of latest & modern technology to provide our customers innovative and hi- tech brass products. Furthermore, we never compromise with the quality, thereby a strict checking is conducted at each stage of production to ensure defect free and flawless range of products with the necessary tools installed at our quality testing unit. In addition to this, our well-coordinated supply and logistics system enables us to deliver products in a safe and efficient way at the client's premises. We are exporting our products in **South Arabia, Gulf Countries, UK, Denmark, Australia, Germany, Srilanka, Russia & South Africa**.
