We are one of the most well-known manufacturer and supplier of a wide range of high quality Industrial Adhesives. These adhesives are widely used in Packaging and Converting Industries.
About Us

Pidilite Industries Ltd. has a strong in-house Research and development centre. Our well-equipped R&D department is continuously engaged in developing as well as enhancing the products that are suitable for consumers, craftsmen and several industries. We have also established a state-of-the-art research centre at Singapore, which has now become a member of Singapore Chemical Industry Council (SCIC). Our organization believes that learning is a continuous process, thus, we conduct specific training programmes for improving the skills and building management competencies amongst the professionals associated with us. Moreover, right energy, attitude and values are infused in our organization’s environment, which can create a great change. We have an advanced infrastructure equipped with all the advanced facilities that enable us to offer an excellent range of products to the clients. Large manufacturing facility of our production unit helps us in meeting the urgent and bulk demands of the clients in an efficient manner. Our team of experts is always engaged in developing the products as per the market demand. With their efforts, we ensure to offer the products that can meet the clients’ requirements in an efficient manner, which helps us in attaining the customer satisfaction. They also make sure to offer the products in tamper-proof and genuine quality packaging, which ensures their safe delivery at the clients’ end. Our team of quality controllers...
