About Us

Pineapple technologies pvt. Ltd. (ptpl) started its operations in october 2002 to provide integrated solutions in various industry sectors like educational, discrete manufacturing, travel, hr, finance, healthcare, retail, telecommunication etc. Ptpl strives towards helping clients achieve higher sales; improve communication, reducing cost, enhancing company's integrity through better solutions and implementation. Ptpl is consistently serving the industry in field of software, hardware and networking infrastructure, giving end to end it & it enabled services to their customers. Ptpl is one stop it solution and service provider.

We found a gap in the market on the fast growing e travel services across the clients we served, meet, spoke and surveyed in the market. The management decided to start a full fledged travel technology development team exclusively to cater and address the needs and fulfill the gap in the link between services and support and of course to make an mark in the market which were served earlier indirectly. Our team is continuously delivering new technological solutions which handles user requirement and business process while maintaining the integrity of the application.

Pineapple technologies pvt. Ltd. Specializes in providing consulting and a wide array of it services to help customers build/improve their it environment. We provide services like software development, web development, technology project management, end to end it...
