Manufacturer of jigs, fixture, welding fixtures, CNC fixture, VMC fixture, dies, relation gauges, final assembly fixtures etc.

## About Us

Although India is marching towards self reliance in electric generation and distribution still there is a wide gap between transmission of quality power mainly due to lack of High Tension transmission lines and distribution through Low Tension power cables. Realizing the demand PEPIPL ventured into erection, and installation of HT lines and commissioning through LT lines. With a small beginning in the field of High Tension and Low Tension cable erection, installation and commission in 1990, PEPIPL ventured into interior electrical works and has also been proved highly successful in this field as well. In the journey of more than two decades, PEPIPL carried out the some of the most prestigious projects in a wide range of market segments. PEPIPL has experience in handling projects involving high cost and risk. PEPIPL has had the privilege of working with some of the Indian majors like GVK Biosciences, Granules India, Hetero Labs, etc., and multinational enterprises such as DuPont, Mylan Labs and many others. With abundant experience gained in every job, PEPIPL is the preferred choice for some of the most challenging and short tenured projects. Due to the vast experience, PEPIPL is now prepared to execute turnkey based projects for complex projects including design, civil, mechanical, HVAC, interiors, electrical works and take up PMC for such projects in the related areas and also keen to provide end to end solutions. Timely completion; Quality of workmanship and Safety are...
