About Us

PNS is a consultancy house built by the experienced & young professionals, who believes in creating value through expertise, timeliness & cost-effective solutions to the clients. An individual cannot be perfect in every filed, every individual has its own quality & expertise, so there is a need of team in which every expert can play a vital role towards accomplishment of the desired goal. PNS is the house of experts to provide a team work; every individual expert provides expertise in his filed and leads the team towards accomplishment of the goal. We have experts in the field of management, business start up & advisory, risk and assurance, tax and regulatory, international taxation, transfer pricing, wealth & financial management, business support services, corporate law and secretarial support, RBI and FEMA compliances. Although, we are consultant, but act as partner for the client and provide business management & development services to the clients according to the demand of complex business environment. We always knock the client's door if we found any opportunity for them. PNS started with the mission to provide a satisfactory & comprehensive range of services to clients. Over the years, our experts have gained in-depth experience in providing multitude of services to number of MNC's as well as Indian business houses. Expert team lays out the plan & executive team serves on prescribed plan under the supervision of the experts. Working of the entire group is...
