Provider of broadband internet services.

About Us

We are one of the cable television service provider in India & now an Internet Service Provider In Mumbai. We are nation's one of the experienced, advanced and innovative company in this business, delivering state-of-the-art technology with excellent services at most competitive prices, with a portfolio of operations since 1991. We are aware of its role in bringing in the best possible service to the customers & communities it serves, through a conscious effort towards investment in the latest information and technology the world has to offer. Whether it is Cable or Internet, ultimately these businesses are about delivering service. Anyone can produce a product, but not everyone can deliver it. We understand this and therefore thrive on the fact that we have achieved and set standards, in providing the very best in cable television services & BroadBand Services. "Home Net[™]" an Internet Product of Home Systems Pvt Ltd use a new fiber optic based broadband network and is powered by Home Systems Pvt Ltd (Mumbai's leading ISP). This connection permits faster data transmission for all the things you use the internet for:- sending and receiving E-mail, surfing the web, transferring files, accessing news, performing research, chatting, watching videos, listening to music, shopping & much more. Our vision for the future is to deliver even more advanced services to the customers including video-on-demand and interactive subscription digital...
