Importers, Stockists & Distributors of Plastic Modular Belts, Motorized Drive Rollers & Conveyor Components and Processors of Engineering Plastics for Material Handling, Packaging and Bottle Handling Industries.

About Us

Established in the year 2011, we “**POLYMER ENGINEERS**” are an eminent organization involved in manufacturing and distributing a quality approved range of **Thermoplastic Products & Components, Conveyor Components, UHMWPE Products** and **Polymer Machined Spares**. The range offered by us encompasses Flat Top Thermoplastic Slat Chain, Thermoplastic Comb Transfer Plate and Thermoplastic Modular Belt. Additionally, we offer our customers a wide range of **Custom Machined Thermoplastic Component for Bottling Plant, KYOWA AC Motorized Drive Roller** and many more. These are fabricated by the professionals of our firm in compliance with the industry standards. All our offered machines and components are widely acclaimed among the clients for their compact design, efficient performance and low maintenance. Moreover, thermoplastic products offered by us are widely used in semiconductor, pulp & paper and pharmaceutical industries. Before the end delivery, all our offered machines and products are stringently checked by the quality analyzers on varied parameters to ensure their flawlessness. A sophisticated infrastructure facility is established by us for having proper execution of all the business related activities in a streamlined manner. The infrastructure facility of our firm is installed with advanced machines that enable us in meeting the bulk requirements of patrons. In order to have secure storage of our...
