

Power Electronics

<https://www.indiamart.com/power-electronic-pune/>

We are one of the distinguished manufacturers and suppliers of a highly reliable range of switch mode power supply, switching power supply and power supply systems for various household and other electrical appliances.

About Us

Power Electronics, Pune, incorporated in the year **1991**, has gained prominence in the arena of manufacturing and supplying an efficient range of power supplies used for various electrical appliances. We also manufacture SMPS adapters, portable battery chargers, industrial battery chargers and DC to DC converters. With quality tested products we have been able to receive appreciation from reputed clienteles namely Kirloskar and Global Wireless.

Our company possesses a highly potential designing and production ability compiled with a comprehensive quality control system. With such an advantage we have been able to increase our operational efficiency and offer an innovative range of products to our customers.

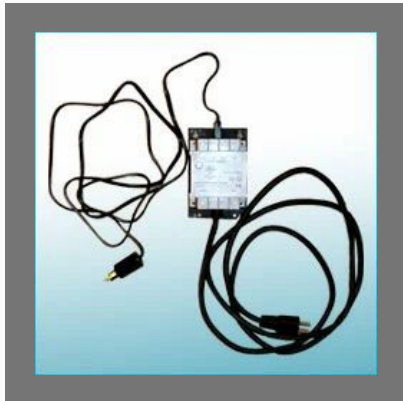

Our wide distribution network has enabled us to work in close coordination with our clients and understand their requirements in a better fashion. Moreover, we have adopted various business strategies for further expansion so that apart from catering to the domestic market, we also expand our list of clients amongst the international arena.
