**Pradeep Metal Treatment Chemicals** was established in **1975** as manufacturers of **Speciality Chemicals** in the field of **Metal Treatment Chemicals, Foundry Chemicals, Effluent Treatment Chemicals & NDT Consumables.**
About Us

Pradeep Metal Treatment Chemicals Private Limited was established in 1975 as manufacturers of Speciality Chemical products in the field of Metal Treatment Chemicals, Foundry Chemicals, Effluent Treatment Chemicals and NDT Consumables.

Presently, this company is one of the leading manufacturers of Dye Penetrant Testing Products, Magnetic Particle Testing Products, NDT Accessories and Leak Testing Products. Some of the products are very unique and are manufactured by very few manufacturers globally. The company is managed by technocrats having vast experience in the field and the products are well accepted all over India & abroad by leading industries.

All the products are developed indigenously to the highest quality standards meeting requirements of most of the international specifications in the NDT field. The company has state of the art manufacturing facilities at three locations in Thane near Mumbai & at Pune in industrially advanced state of Maharashtra in India. The manufacturing plants are equipped with modern equipments and in house QC & R&D laboratories.

Company manufactures following high quality products.

- Dye Penetrant Testing Chemicals (Full Range)
- Magnetic Particle Testing Consumables (Full Range)
- Flaw Guide Leak Testing Consumables
- Accessories for Penetrant, Magnetic Particle & Other NDT Techniques
