We are engaged in providing solutions of Fiber & Copper Cabling for Large & SMEs Organizations. Our skilled engineers deliver top quality connectivity solutions for Outside Plants, Industrial Establishments, Factories and IT Parks

About Us

Established in the year **2006**, **Pranaav Tele-Ventures Private Limited** has become one of the renowned names in the IT Networking service industry. We are located in Chennai, Tamil Nadu, India. Our IT Networking solutions are provided from concept to commissioning in technical collaboration with leading telecom manufacturers. Our services are provided in the field of Engineering Design, Project Life Cycle Management, Civil Works, Industrial Telecom Erection, Project Management and Maintenance. Our sophisticated and well equipped facility enables us to meet the various industrial requirements. We provide the networking solutions in accordance to the needs of signals and communication. Leveraging to the latest technology, we have successfully achieved our clients' confidence and trust and have spread our business across the nation. Under the firm guidance of our **CEO, Mr. Srinivasan Mahendran**, we have achieved one of the leading positions in the industry. His vast industrial experience and service knowledge has enabled us to enhance the service standard, which has taken us one step ahead of our counterparts. Because of his support, we have been able to meet the varied needs of our clients.
