We are a reckoned firm engaged in manufacturing and supplying a wide range of Turning, Boring and CNC Machines. These products are highly acknowledged in market for their exceptional rigidity, stability and accuracy.
About Us

Established in the year 2010, we, “Precision Machine Kraft, Rajkot”, are a prominent name engaged in manufacturing and supplying a wide and comprehensive range of Turning, Boring and CNC Machines. Under this range, we offer CNC Turning Center Machines, Mono CNC Turning Centers, Twin Head Boring Machines and CNC Turning Machines. These machines are fabricated using high grade raw material, procured from reliable vendors of market. The offered range of CNC machines is appreciated for its robust engineering, optimum quality, longer functional life and superior performance. Turning machines offered by us, are ideally applicable in automobiles and industrial installations, owing to their sturdy construction, easier operations and quick results. Boring machines offered by us are developed using modern machinery and sophisticated technology in complete adherence with the highest quality norms. These boring machines are highly admired among the clients, owing to their operational fluency, higher efficiency and easy maintenance. In addition to this, our research and development experts ensure to conduct rigorous surveys and researches, so as to maintain and enhance the quality of machines. We have come up with the sprawling infrastructure, spread over an area of 10,000 sq. ft., which is installed with the advanced machinery and advanced technology. The premises aids us in handling the business related activities in a streamlined...
