Manufacturer of super grind-eco plus, wet grinder-easy grind etc.

About Us

The manufacturing practices at the company's manufacturing facilities are comprehensive and systematic from the inward inspection of vendors supplies to the in process systems and the final assembly.

Vendors to the company are extended partners so much so they participate in development and are in turn Preethi's quality control inspectors.

Every product current or under development carries the Preethi assurance of quality, the hallmark of the brand.

The philosophy at MAL that governs the manufacturing processes is R & D driven by market feedback and continuous innovation.

Preethi works with top notch research and design houses to internalize feedback. Some of the innovations that have clearly catapulted Preethi to the top include:

The first to introduce

A 750W motor

Super extractor

Grind and store facility The company relies on its core values of consumer trust, ethics in business practices and quality in products and services. The mission at MAL remains to improve the family's quality of life through the superior quality and efficiency of its home appliances.
