## About Us

Print Electronics was set up in the year 1987, as a proprietary concern with the prime objective of designing and developing Industrial Electronic Equipments suitable for various conditions. Soon Print Electronics became a trusted name in Time Management and Access Control as the products were manufactured with precision and were passed through stringent quality control checks. This System proved to be an effective tool to the Management who gradually believed that performance is the key to competitive success. In the current changing scenario at National and International level, where major thrust is being given on the effective and optimum utilization of Human Resources, our system came handy as a strategic tool to the Management for Manpower. The users could achieve cost competitiveness, which is a MUST for Survival, Growth and Profitability of any business organization. As a result of this growing realization, our System is now successfully operating in over Five thousand small and big corporate offices all over the country and abroad.
