## Technology

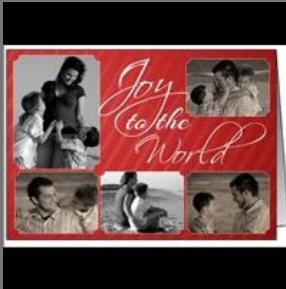

Printkaro's proprietary and revolutionary technology allows users to create and save designs online and also view instant online proof files to expedite the traditionally hassled pre-printing process. Printkaro's systems are based on 15+ years of experience in the printing industry and ensure minimal deviation between what you might see on screen vs. the actual printed product. Because of the complete automation in the way orders are procured and processed, we incur lower costs than traditional printers, which results in our customers benefiting from lower prices for superior quality printing. - See more at: <http://www.printkaro.in/page/aboutus#sthash.MkwtY90T.dpuf>
