## About Us

We at Proactive Investments are into Risk and Insurance Management. We provide our clients with consultancy related to the above. Our business was conceptualized and took form 25 years ago in the mind of a young entrepreneur who knew that every business is born out of a vision to succeed and to reach out to the masses. Mr. Chaitanya Digambar Gokhale, a commerce graduate wanted people to be aware of saving and investment options which would eventually make their future secure. Apart from that he also wanted his clients to make the right choice when it came to risk and insurance options and he did this by providing them with exposure, knowledge and guidance.

**Concept:** There is a purpose behind every decision that you make in life because it depends on the requirements at that time. Keeping this in mind our policies are all “need based.” Insurance, investment and retirement all are needs that are taken care by LIC. Insurance not only secures your family’s future but it can also secure yours by investing in good continuous income options. **Why**

**Retirement Plans?** The retirement plans are important and are governed by the four C’s:

- Contributing to Income
- Consumption of Income
- Conservation of Income
- Continuation of Income

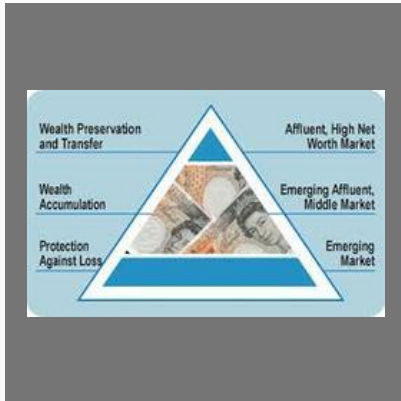

Income will not last throughout out lives and thus, LIC believes that investing wisely and early so that it will ensure that there is a steady income available when one...
