Offering website development services, information management system services etc.

## About Us

Technology is the biggest happening in the history of mankind in the modern times. The possibilities in this magnanimous term 'Technology' are way beyond the rational confines of the human brain. Yet it is the human mind that has created this extra- ordinary marvel.

In today's world the availability of technology is in abundance, so vast spread out it is that today almost anybody can claim to possess the best of technology. Yet, to understand and use the technology in the right earnest is quite similar to understanding and exploring the genetic code of the human body.

We need the best of intelligence, rationality and the zest to understand the use and application of technology for the benefit of the mankind. Prolific Technologies is a pioneering Software consultancy that seeks to extend the leverage of Internet and automation to schools all over India. We offer schools a robust and intuitive Information Management System, seamlessly integrated with the latest in Internet, for absolutely no cost – no hosting, no installation, no maintenance, no hidden costs, whatsoever. The entire framework of access to information through our software is purely login-based and hence highly secure and confidential. Our portal is steered by a whole suite of reliable applications that leave no room for loopholes or human error. We have utilized proven technologies and methodologies combined with business acumen during the software development and...
