We are ably supplying precise engineered range of Spin Coaters, Semiconductor Wafers, Wire Bonders, Lithography Systems, and much more. Started to provide microelectronics packaging services and wire bonding services for lithium ion batteries.

About Us

Capitalizing in our decades of industrial knowledge as well as experience, we, **Prolyx Microelectronics Pvt. Ltd.** are capable of providing a range as per the desires as well as expectations of clients. Incorporated in the year **2000**, we are focusing towards **supplying and trading** a qualitative range of **Spin Coater, Semiconductor Wafers, Evaporation Material, and much more**. To meet the growing demands of clients, we ensure to provide them a range according to their exact demands. Superior quality raw material is used by our vendors in the development of products, which make them best in terms of excellence and highly preferable by the clients. We have adopted several quality guiding principles, recommended by the industry, to ensure that products are according to that only. Further, the products we offer are applauded for dimensional accuracy, high functionality, optimum quality, precision engineering, corrosion resistant, rugged construction and many others. We have spread our network all over the nation to serve to our valuable clients efficiently.

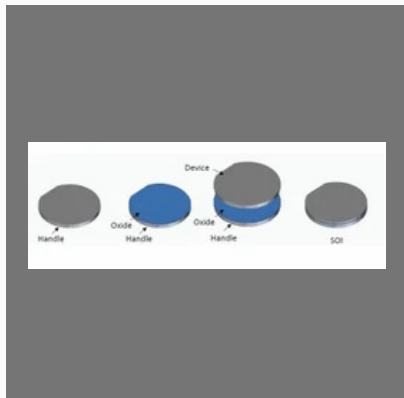

Our company has successfully achieved commendable position in the industry by executing all their operations under the prudent guidelines of managing director **Mr. M. M. C. Kishore**. He helped us acquiring respectable status and garnering huge clientele support, with his rich industrial experience, ethical working approach and...
