Vibgyor spectrom is the place where design meets advertising. We provide our clients with strong visual communications and powerful creative concepts. Our work is based on the philosophy that one picture says more than a thousand words.

About Us

Vibgyor spectrom is the place where design meets advertising. We provide our clients with strong visual communications and powerful creative concepts. Our work is based on the philosophy that one picture says more than a thousand words; we apply this theory to all work; from visual identities to print ads, from promotional materials to exhibition, motion graphics and web design.

Because a strong brand identity is the foundation of any healthy company, we first translate the positioning into a tangible visual identity. This brings your brand to life and gives it character and personality. Once the identity is created, we help building your brand, ensuring consistency across all visual communications.

We have served more than 100 clients with world class services and products.

We believe in team work and complete client satisfaction, hence leave no stone unturned to deliver world class products on time. Our expertise and experienced manpower separates us from our competitors. We offer best competitive rates in the entire industry.

It would be great to have an opportunity to meet you and show some of the corporate works that we have done. We look forward for a healthy and long working relationship with your esteemed organization.
