Rainbow Careers was established with motive of bridging the gap between the candidate and the prospective employer.

About Us

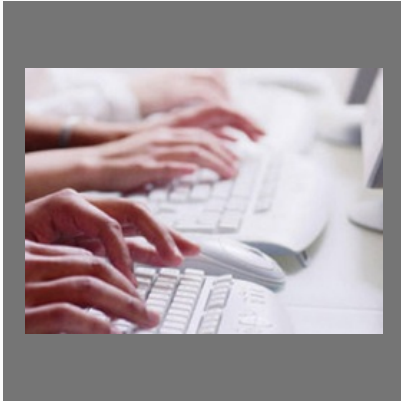

Rainbow Careers was established with motive of bridging the gap between the candidate and the prospective employer , by acting as a Catalyst between the two, by enabling the candidate to be ready for the job and to reduce the lead time to hire and train the candidate by the employer , since the biggest challenge for the company is to fulfill the requirements within the given timelines and for the candidate finding the right job as per his qualification , interest and experience.
