## About Us

We - **Raj Construction Company**, are one of the well known construction & infrastructure designing service providers which includes civil construction, industrial interior designing services, landscaping services and security services. We have successfully ventured to bring the imaginations of our clients into concrete reality. We have been providing quality engineering services to our clients for over one decade. Owing to our expertise in construction and infrastructural designing, we are offering full-line of civil construction, industrial interior designing services, landscaping services, security services and host of other services. Over the period, We have carved a niche for ourselves in the construction business by successfully executing the civil construction works, landscaping solutions, security services and interior & exterior designing.

Supported by extensive knowledge and vast experience of our founder members, our skilled workforce is committed to timely completion of every project undertaken without compromising on the issues related to quality, safety and environment. We are one of the selected construction company in India to have gained expertise in managing the execution of large-scale construction projects, right from mobilization stage to execution within specified time frame. The major services provided include civil construction services, residential construction services, interior designing services, home designing services,...
