<https://www.indiamart.com/rajdhanelectricals-rajkot/>

We are the renowned Manufacturer and Supplier of ARC Welding Machines, ARC Welding Inverters, Spot Welding Machines, ARC Welding Portable Machines, etc. These are known for their easy to operate and sturdy design.

## About Us

Incorporated in the year **2005**, in **Rajkot (Gujarat, India)**, we “**Rajdhani Electricals**” are renowned **manufacturer** and **supplier** of a qualitative array of **ARC Welding Machines, ARC Welding Inverters, Spot Welding Machines, ARC Welding Portable Machines, D.C Welding Machines** and **Soldering Machines**. The offered machines are manufactured using high quality components and advanced technology in observance with the set international norms. Our machines have gained a lot of appreciation owing to their salient features like features like excellent functionality, long working life, easy to operate, sturdy design, optimum finish, low maintenance and reliability. Keeping in mind the diverse demands of our clients, we provide these machines in various specifications. To ensure their quality at user' end, these machines are checked on various quality parameters by our quality experts.

Backed by the support of our skilled professional, we have been able to provide a wide range of machines. On the other hand, our infrastructure is facilitated by a well-equipped unit which is outfitted with latest machines, equipment and tools which aids us to provide our products within the assured time frame. Under the management of our **Proprietor**, “**Kasam Bhai**”, we have achieved a perfect position in the industry. Our ethical business policies, client-centric approach, transparent dealings, easy payment option...
