We are a famous manufacturer of the quality approved assortment of Biofertilizer and Granules. These are admired for high purity and effectiveness.

## About Us

We **RajyaLakshmi Life Sciences**, from **2018**, are serving our customers by manufacturing high-quality Biofertilizer and Granules. Offered products range consists of Azospirillum Biofertilizer, Barnyard Millet, and Bentonite Granules. All offered assortments are prepared as per client need under the supervision of quality controllers using the best quality ingredients. This biofertilizer and granules range is highly required for their features like high purity, accurate preparation, leak-free packing, and long shelf life.

We have a modern infrastructure in our organization. Owing to our high-quality biofertilizer and granules; we have a respected position in this domain. In addition to this, we also offer many payment options like online, check, DD and many more to clients for helping them conduct hassle free transaction with us. Our company is famous for providing biofertilizer and granules of superior quality at very affordable rates.

Under the direction of our mentor, **Mr. K Hymavathi Kanaparthi**, we have been able to create a huge patron. His efforts and dedication have assisted us to gain value in strategic planning and most important customer gratification.
