About Us

Established in **2008**, **Rama Mechanical Workers** is a famous **Manufacturer, Wholesaler and Trader** of a wide gamut of **Borewell Drilling Machine, Drill Pipe** and much more.

Quality is an integral part of all our operations as it is one of the most prominent elements that have raised our status in the industry. We follow a quality policy in our organization, which is in sync with the international standards.

Some of the highlights of our quality policy are as follows:

- Select only reliable vendors to source raw materials.
- All processes are to be conducted under the supervision of quality analysis.
- Finalized products are to be tested before delivery.
- Provide customized solutions to the clients.
- Meet their queries swiftly.

By strictly adhering to our quality policy we assure optimum range of our Agricultural Equipment to our customers.

Manufacturing Facility - We have set up a highly sophisticated manufacturing unit to ensure bulk production at low costs. It is well equipped with modern machinery, which are handled and maintained by skilled workers. The machines installed at the unit are CNC Machines, cutting machine, lathe machine, shaping machine, bending machine, molding machine, MIG welding machine, finishing machine, polishing machine and material handling equipment. We use PU quality paint for coloring all the products. The benefits gained from optimum...
